“ It saddens me to learn of the passing of Beverly. We were good friends while we were in high school. One memory that I remember is riding past Philip's house every day. She had to have Philip in her life. Beverly adored Philip. She often went to the beach with me and my family! One time she got bad sun poisoning and was very sick for a while. I think that her nickname was Hooper or her car was named Hooper. Philip, she loved you very much!

“ Phillip, please know I am broken to learn of Beverly's passing. Breaks my heart! I didn't know she had been battling cancer. God bless her, as I am sure she fought with her whole being. It's been so many years since I have seen you guys. I lost touch and for the past five years I have been trying to find you. I had no idea who to contact. I tried Brad, and Brian. I looked for Beverly's cousin Janice Blair but couldn't find her. I Googled you both, hoping I'd stumble on some way to find you. I then learned that David Martin might know. I don't remember him but I sent him several messages through messenger, and, as recently as July 2017, but, I don't think he received them. I accidentally discovered that you and Norris had played golf together, so after hearing the sad news, I contacted Monte. Anyway, I said all of that to say this...I always loved Beverly. We were such good friends in High School and through college. She was in my wedding. So, despite the time that swiftly passes, she was always in my heart...always. My heart hurts for you, Phillip. Please know that to be true! I have no doubt that you and Beverly had a wonderful life! I'm sure she loved and treasured you as her steadfast husband all those 48 years. Please let me know if there is anything I can do to help you, Phillip. I plan to see you on Friday. My number is 770-301-4928. Warm hugs to you during this devastating time in your life!

“ I am already missing Bev's welcoming smile, sense of humor, conversational ability, joy, encouragement, gentle spirit and deeply gracious heart. She helped rescue my daughter and showered mercy on my wife and me during our own trials. I am at once broken hearted and also grateful that she's home.

“ Beverly's family is in my thoughts and prayers during this difficult time. Both Phil and Beverly are family friends and were my professors while I was in the MBA program at WCU. It was Phil and Beverly who encouraged me to do the program and helped me obtain a graduate assistant position that helped make it possible. They were more than professors--they were mentors. I fondly remember all the classes I had with Beverly. She was passionate about education, and even more passionate about seeing her students learn and succeed. I have had very few professors who take a personal interest in their students, so what Phil and Beverly provided was rare--and appreciated. Phil and Beverly even attended my graduation party. I will always think of Beverly very fondly and how she helped me and so many other students like me. She made a difference in our lives.

“ Philip and family, we are sad to hear of Beverly's passing. “ Beverly is a wonderful human being! I say is because that doesnt change this very fact. In knowing and ministering to her I learned a great deal about life in general. What is important and what isnt! Aiding her on this journey was a privilege to me. I marvel at her spouse Phillip! She loved you dearly! It was obvious to me you indeed loved her as well. So God came one day and reached for Beverly's hand. In wonder she lit up like the birth of a star. She grabbed the fathers hand and to her true home! Phillip? May God give you comfort and bring so many people in your path! This is the first time learning if the news! Thank God for allowing her to enter my life! I love you Beverly
