Through her smile, laughter, compassion, intelligence, wit and beautiful wise old soul. She had a huge heart and cared deeply for every living thing. She could not stand to see anyone unhappy or suffering in any way. Her passions in life show how caring and selfless she was. She adored planting seeds and bringing life into this world. She had a passion for helping sick children and came up with ways to make them more comfortable along their journeys. She always wanted to help wildlife and would do so by making sure the animals outside were fed and taken care of.

She was always wanting to make sure her family was happy and healthy. She

was always concerned about everyone else, even through her own struggles and battles. She had an Amazing sense of humor...She had a way of making us smile and laugh. You couldn't help but to be happy when you were around Kaylie. She would make sure you were okay and do her best to bring a smile upon your face. She loved life to the fullest and always did her best to stay positive and smile through anything life threw at her. She was a one of a kind and anyone that has known her would say they are honored to have known such a Beautiful Soul. She would want us all to be Happy, Smiling, and helping anyway we can.

Help keep Kaylies legacy alive by helping others, animals, planting seeds and doing your best to make the world a better place through love and compassion.

Poem

-for my daughter

“Kites”

How many a brave kite
have been claimed by the clouds.
Scaling the sides and spires
tiers and tops of the mountains
they abound.
What a joy it is that flight brings.
But such a waste, it is
to keep, at the end of a string.

-Joseph Stephens
